Soldier Readiness Processing

Readiness/Pre-Deployment

MISSION: Provide units and individual Soldiers with a centralized facility for deployment SRP and annual readiness checks.

PURPOSE: Validation of Soldier's deployment / medical requirements.

TIMELINE: All units at Fort Campbell will utilize the SRP site for all readiness activities associated with Level II (Installation Readiness SRP NET D-180 and NLT D-120), Level III (Installation Pre-Deployment SRP NET D-90 and NLT D-60) and select Level I (Unit Readiness (MRE/MRX off installation)).

ENDSTATE: Soldiers prepared to deploy.

SME: Freddie Green/Laura Beck

Scheme of Maneuver: Units will schedule the SRP site for deployment SRP and annual readiness checks NLT eight (8) weeks in advance. All Soldiers will process through the SRP site for screening and readiness checks The SRP site will serve as the sole source for all Smallpox and Anthrax vaccinations. Units utilizing the SRP site will provide staffing from organic medical assets during pre and post deployment windows.

Fire Safety Tips

David Land
Fire Inspector

The Dangers of Space Heaters

- **Remember space heaters are for temporary use only.**

- **Space heaters are no substitute for central heating, nor are they designed for extended use.**

- **Do and Don’ts Safety Tips if Space Heaters are used:**
  - **Do select a space heater that is rated by the manufacturer for the size space you intend to heat.**
  - **Do make sure the heating equipment has the label showing that it is listed by a recognized testing laboratory (UL).**
  - **Do plug heater into outlets with sufficient capacity and never into an extension cord or surge protector.**
  - **Do kept at least 36 inches from any combustible materials such a furniture and paper.**
  - **Don’t position heaters near water or where there is danger of water being spilled, to avoid serious risk of electric shock.**
  - **Don’t hide cords under rugs or carpets. Placing anything on top of a cord could cause it to overheat, and can cause fire.**
  - **Don’t ever place heaters on furniture, since they may fall, dislodging or breaking parts in the heater, which could result in a fire or shock hazard.**
  - **Don’t leave space heaters operating when you are not in the room.**
  - **Don’t put drying clothing or combustibles over heaters.**
